

THE SOUTH CAROLINA OBSTETRICAL AND GYNECOLOGICAL SOCIETY

78th Annual Meeting

USC Alumni Center | Columbia, SC | April 19, 2024

PRESIDENT'S LETTER.....

Dear Colleagues,

Welcome to Soda City! We are excited to host this SC OB/GYN Society meeting in our capital city. Columbia in the spring is host to many events and activities, in addition to the many restaurants and shopping venues in the Vista and Devine Street area.

We have seventeen exhibitors registered for the meeting and are anticipating some excellent presentations by our speakers. Please note that we **still** need members to pay their outstanding yearly dues. Our operating expenses cannot continue to be covered without members paying their dues promptly. For us to continue to attract meeting exhibitors and pay for venue space, it is essential that we receive dues in a timely manner.

Thank you in advance for your attention to this matter.

Again, welcome to the 2024 meeting. I look forward to seeing you.

Sincerely
Scott H. Daniel, M.D.

INVITED SPEAKERS.....

Mission Statement

The goal of the South Carolina Obstetrical and Gynecological Society is the improvement of health care delivery, education and research in obstetrics and gynecology through patient care. The objectives of the Society are to:

- Promote the concept of patient care
- Provide a forum for discussion of management problems
- Provide a mechanism for exchange of information
- Interact with other organizations in accomplishing its goals

Scott H. Daniel, MD, President of the SC Ob/Gyn Society, and **Dawn Bingham, MD**, Chair of the SC Section of ACOG present our distinguished speakers:
Sponsored by Select Health of South Carolina

Artificial Intelligence: a Healthcare Primer

Marc Bingham, MD, FAAP

Objectives: Upon completion of this lecture, the participant will be able to:

1. Identify current or emerging uses of AI in healthcare such as clinical decision support, medical imaging, and patient monitoring
2. Discuss ethical issues related to the use of AI in medicine such as potential biases in algorithms and challenges to ensuring transparency
3. Explain how you can evaluate AI systems to ensure safety, effectiveness, and equity including assessing for biases and lack of transparency
4. Compare the promises and limitations of applying AI technology in the practice of medicine including improved efficiency and accuracy
5. Describe principles for the responsible and ethical development and adoption of AI in healthcare
6. Analyze how AI could impact physician practices and responsibilities as well as the healthcare workforce

The South Carolina Obstetrical and Gynecological Society and The South Carolina Section of ACOG
